Silo  
Hickory County  
Missouri

HABS No. MO-1268

Robert L. Hayden, Photographer July, 1978

MO-1268-1 EXTERIOR, LOOKING SOUTHEAST

MO-1268-2 INTERIOR, LOOKING UP INTO ELEVATOR CHANNEL

Photographer's note: "Construction of factory-made rings dates this silo in the 1930s. Self-supporting rings were erected on the site, cemented in place. Rods on top of silo support fence and probably a tin roof, suggesting storage of volatile, alcohol-producing silage known locally as high gear and/or kaffa corn."
